## 1.2 Solution to Medium chess puzzle 0008

At this puzzle, next **move** is by **Black**. The objective of the puzzle is to avoid losing the **queen**. Here your queen at **e7** is supported by your **king**. If your king gives up the support, your queen becomes unsupported. So the opponent will try to deflect your king. They could do this by **sacrificing** their **bishop**. If their bishop captures your **pawn** at **g7** and gives a **check**, your king has to move to **g8** or **capture** the bishop. The king can not move to **e8** as that square is targeted by the **knight** at **c7**. If your king does any of these moves you will lose your king.

You have three options to save your queen.

1. Block the bishop access to g7. This can be done by moving the pawn in f file to f6.
2. Block opponents queen's target on your queen. This can be done by moving the pawn in c file to c5.
3. Capture the opponents queen
